Chapter One

1.1 Introduction

Baddegama Divisional Secretariat Division is located 18 km inland from Galle city. The total number of Grama Niladhari Divisions in the division is 48, consisting of 30 Grama Niladhari Divisions in Baddegama Electoral Division and 18 Grama Niladhari Divisions in Ambalangoda Electoral Division .

Baddegama Divisional Secretariat Division covers an area of 6900 hectares . 7% of the total land area of the Galle District belongs to Baddegama Divisional Secretariat Division. When compared to other Divisional Secretariat Divisions, it is 5 The Baddegama Divisional Secretariat Division takes the fourth place.

In the past, paddy farming was the main livelihood of this division, which has a semi-urban and rural population. The name Baddegama was coined because paddy farming was very advanced in the past. However, tea cultivation can be considered the main source of livelihood today. In addition to this, rubber, coconut, cinnamon and minor export crops and home gardening can be seen.

The main watershed of this division is the Gin River, which flows along the border of the division and sometimes through the middle of the division. It is fed by several tributaries such as the Holuwagoda Canal, Thudawe Canal, Galabada Canal, Keembi Ela, and Puhulduwa Canal. Also, the Dolahena Reserve and the Kirindalahena Lake located in the center of the division enhance the beauty of the division.

Although this division was threatened by flooding in the past, it was largely avoided by the first phase of the Ginganga scheme implemented in the late 1970s.

Among the historical and archaeological sites in the Baddegama Divisional Secretariat, the ancient Wilgamu Rajamaha Viharaya of Mabotuwana, dating back to the Dambadeniya period, and the Dutugemunu Rajamaha Viharaya and the surrounding sandaras also occupy important positions.

The expressway in this division can also be introduced as a milestone in development.

For administrative convenience, this division is divided into 48 Grama Niladhari Divisions. The 48 Grama Niladhari Divisions have also been grouped into sections according to the needs of various institutions.

1.2 Grama Niladhari Divisions

There have been various changes in the number of Grama Niladhari Divisions, which are the smallest administrative unit. The number of Grama Niladhari Divisions that existed before 1987 was 24, and in 1987, there were 36, and then in 1989, there were 70 Grama Niladhari Divisions. Divided into 48 divisions as of March 2021 .

In terms of area, the smallest Grama Niladhari Division is Ginimellagaha South Grama Niladhari Division, with an area of 41 hectares. The largest Grama Niladhari Division is 220 A Ganegama East, with an area of 331 hectares.

1.4 Topography and drainage (***TOPOGRAPHY AND DRAINAGE***)

When considering the topography of the Baddegama Divisional Secretariat Division, it belongs to the South-Western Lowland. When considering the elevation, the western part of the division is a low plain area since it is the Gin Ganga catchment area. The northeast, central, east and southeast areas of this division are higher in elevation. The mountain ranges of this division are located in the northwest-southeast direction.

Among the Grama Niladhari divisions mentioned here, the elevations are as follows: Hammeliya 300 feet, Baddegama East 400 feet, Thilaka Udagama 400 feet, Kasideniya 300 feet, etc.

The division includes Halpathota West, Baddegama, Gothatuwa, Ginimellagaha, Thelikada, Horagampita, Walpita North, The Ganegama Grama Niladhari Division is a low-lying plain area.

Considering the drainage of Baddegama division, the western part and the northern boundary are the catchment areas of the Gin Ganga. Also, the western boundary of the division shows a network-like drainage. The Holuwagoda Stream is found on the southern boundary. Starting from the mountains seen in the southeastern area, it flows in a southwesterly direction and forms the Keembiyya Stream and Puhulduwa Stream. Joins the river.

1.6 Slope zones (***SLOPE CLASSES MAP***)

The slope zone map of the Baddegama Divisional Secretariat has been prepared based on the 1:50,000 Ambalangoda Topographic Map, taking into account its contour line spacing.

The Pilagoda Grama Niladhari Division has a gross slope area of more than 60% towards the center of this Divisional Secretariat Division .

A large area is found in the 0% - 8% slope zone. The main reason for this is that the western part is close to the coastal plain.

Areas with slopes between 8% - 16% are classified as The Grama Niladhari divisions of Hammeliya, Thilaka Udagama and Kasideniya can be mentioned.

The divisions with areas falling within the 16% -30% slope zone include the Grama Niladhari divisions of Ellakanda Wathurawa, Hammeliya, Mahalapitiya, Warakapitikanda, Thilaka Udagama, Pahalakimbiya and Kohombanadeniya.

Furthermore, Kotagoda and Hammeliya can be mentioned as Grama Niladhari divisions belonging to the slope zone between 30% -60% .

The land area according to the slope zones of the Baddegama Divisional Secretariat Division is shown below.

Grade	Slope class	Land area (hectares)	Percentage (%)

1.9 From the flood FLOOD *DETENTION* AREAS

Regarding the flood-affected areas in the Baddegama Divisional Secretariat Division

The Gin Ganga, which flows in an east-west and south-south direction, is the main watershed that flows throughout the Baddegama Divisional Secretariat Division. Accordingly, the division is a low-lying valley area with a minimum elevation of about 12 feet above sea level, and therefore the plain area from Agaliya to Ginthota belonging to the Baddegama Divisional Secretariat Division is constantly under the threat of flooding. This is evident from the following Grama Niladhari divisions: Baddegama North, Nayapamula, Baddegama Town, Kotagoda, Pilagoda, Hammeliya, Mahalapitiya, Ganegama North, Halpathota, Halpathota Central, Majuwana, Lelkada, Dodangoda, Thelikada, Horagampita, Horagampita Central, Walpita South, Balagoda, Keembi Ela, Andurathwila, Kasideniya, Warakapitiya Kanda, Ganegama South, Ganegama West.

For this purpose, the Ging Ganga Project, launched in 1976 with the assistance of the People's Republic of China to control floods, has minimized floods to some extent by constructing cut canals and dams. Approximately 5413 hectares have been roughly determined as areas that will be flooded during this period and have been shown on a 1:50,000 map with Grama Niladhari divisions.

Twelfth Chapter

Environmental issues

12. 1 Major environmental issues

1. Unauthorized dumping of sand from the Ganga River :

This causes soil erosion , riverbank erosion , and water shortages in wells during dry seasons in areas near the Ganges .

2. The cracking of granite causes springs to dry up and soil to erode.

03. Mosquito infestation - The abandoned paddy fields due to the Ganga project , the small reservoirs created due to the construction of embankments for the project , and the swampy areas in this area are breeding grounds for mosquitoes . These conditions lead to the spread of diseases such as dengue fever and malaria .

12.2 Methods of environmental pollution

pesticides and herbicides are used in agricultural activities . These cause soil and water pollution .

12.3 Solutions to environmental problems

Currently, the Baddegama Pradeshiya Sabha is implementing an environmentally friendly method as a solution to garbage . For this, they collect and sort garbage in the area and produce compost fertilizer . For that fertilizer, the area

There is a huge demand from tea growers .

12. 4Ecologically Important *Areas*

Sandarawala Reservoir Historically important .
